

**IF L⚡NES
ARE DOWN,
DON'T HANG
AROUND**

An overhead power line can become damaged or fall due to a severe storm, car accident, public damage or other reasons. If you see a downed power line, take these actions:

Consider all power lines energized and deadly.

Do not get out of your vehicle.

Stay at least 50 feet away.

Do not approach the scene.

Call 9-1-1 or the utility to report the downed line.

Warn others to stay away.

Do not approach it or try to move it with another object.

Turn around and go the other way.
