

Holmes-Wayne Electric Cooperative, Inc.

*Glenn W. Miller
President/CEO*

Why we celebrate YOU in October

Every October we celebrate National Cooperative Month. But what are we really celebrating? What makes Holmes-Wayne Electric Cooperative, Inc., different, and why should that matter to YOU?

Our economy still has critical hurdles to overcome, so you may not feel like celebrating at all. But when our faith in big institutions has been shaken, it's the perfect time to remember what we've already accomplished locally — all with a little cooperation.

We've faced tough times before; 77 years ago our area didn't have electricity. Urban areas were enjoying the multitude of advantages electricity had to offer but rural America was still in the dark. But instead of waiting for someone else to fix our problem, we turned to each other. We built our own utility, and we powered our future.

By our very nature, not-for-profit, local, member-owned and -governed cooperatives like Holmes-Wayne Electric empowered members to improve their lives. And while bringing electricity to rural Ohio was a big first step, you, as our members, certainly didn't stop there. Just think about what we've accomplished over the last three quarters of a century. The economic development in our community of agriculture and industry has been staggering.

Last year, you funded \$12,000 in college scholarships for your neighbors' children. These bright young leaders will keep our community's future strong.

Supporting a strong community on your behalf,

our employees serve Holmes County Economic Development Council, Tri-County Workforce Policy Board, local Chambers of Commerces, volunteer coaching local youth teams, and a key role in raising funds for the American Cancer Society Relay for Life. More than \$81,000 has been raised for Relay. Staff members also actively participate during the holidays in Share-A-Christmas and donate their time to a local food pantry.

Don't forget the generous contributions every month by more than 7,200 HWEC members who actively participate in our Operation Round Up program. Through this foundation, you have given more than \$300,000 to local organizations, families and individuals in need over the last six and half years.

By working with your cooperative you can make a big impact on the communities we serve. Ready to get involved? Attend our annual membership meeting held every June and let us know what issues are important to you. Also become an active member of COPA® (Cooperative Owners for Political Action) to have your voice heard at both the state and federal levels. Grassroots effort like COPA allow for our concerns to be voiced.

As we celebrate National Cooperative Month, thank you for your efforts to strengthen our community. We want you to continue to stay involved as we build a better future together. The cooperative business model is a valuable tool that lets us improve our quality of life. Find out more about YOUR cooperative at www.hwecoop.com

National Cooperative Month is a time to celebrate YOU, our members — the real POWER in the communities we serve!

Energy Savings Days

Oct. 10 1-6 p.m.
HWEC office -
Millersburg

Oct. 16 1-6 p.m.
HWEC office -
West Salem

Holmes-Wayne Electric will be hosting our 4th annual Energy Savings Days on Oct. 10 and 16. Please mark your calendar to come visit us.

As winter quickly approaches, this is a wonderful opportunity for you to learn more ways to make your home more energy efficient and reduce your energy consumption which reduces your electric bill.

Attendees will receive a pack of compact fluorescent light bulbs and an entry for \$100 bill credit drawing. We will draw a winner from each event location.

You can learn more about our home energy audits and schedule a full house audit for yourself. You can see examples of low cost winterization of your home for the upcoming cold winter. Why try to heat the outside as well?

We will also have local agencies available to assist with applications for Ohio's home energy assistance program (HEAP).

We can even review your personal past consumption and enroll for our no stress budget billing program.

While you're visiting you may view our table top safety demo and learn more about the dangers of electric and how to keep yourself safe.

Our staff will be available to answer questions and assist you with planning for another cold Ohio winter. Take advantage of this free service!

All HWEC members receive a free pack of compact fluorescent light bulbs and a chance to win a \$100 bill credit for your November bill.

Watch out for electrical hazards on the farm

BY CHRIS GRAMMES

Those who live on a farm know that not only is it hard work, but it can be dangerous, too. Each year, farmers are electrocuted when large farm machinery comes into contact with overhead power lines.

Often, the situation occurs because a newer, bigger piece of equipment no longer clears a line the way a smaller one did. In addition, shifting soil may also affect whether or not machinery avoids power lines from year to year.

The following tips will help keep everyone on a farm safe:

- Look over work areas carefully for overhead power lines and utility poles.
- Make sure you have ample clearance when moving large machinery such as combines, grain augers, pickers, bailers and front-end loaders. Do this every year as equipment sizes or soil conditions may change.
- Store large equipment properly if near or under power lines. When planning new construction, factor in existing power lines.
- Be extra careful when working around trees and brush; they often make it difficult to see power lines.
- Train all farm workers to keep an eye out for overhead power lines.

Don't let electrical hazards haunt Halloween!

Halloween is the most festively frightening night of the year. But don't make yours fraught with danger. Here are some safety reminders:

- As you're decorating, make sure you and your parents check for cracked sockets, frayed, loose or bare wires, and loose connections.

- Fasten all outdoor lights securely to trees and other firm supports. Do not use nails or tacks that could puncture insulating cords and damage wires.

- Make sure decorative lighting is well-ventilated, protected from weather and remains a safe distance from anything flammable like dry leaves and shrubs. Do not coil extension cords while in use or tuck under rugs or drapes.

- Make sure all outdoor electrical lights and decorations are plugged into an outlet protected with a

ground-fault circuit interrupter (GFCI). If your outlets aren't equipped with GFCIs, have an electrician install them or buy a GFCI adapter plug. Don't

overload outlets with too many extension cords and strands of lights.

- Keep power cords off walkways and porches that trick-or-treaters may use. You don't want them to trip.

- Have mom or dad leave the porch light on for trick-or-treaters, and be sure to turn out all spooky lights and decorations before

leaving home or going to bed. This will also save energy.

For more tips visit www.SafeElectricity.org.

2012 Relay for Life

A special thank you goes out to the businesses listed below for their generous donations to the 2012 Holmes-Wayne Electric Relay for Life.

The 2012 HWEC Relay for Life team raised \$7,760 for the American Cancer Society (ACS).

All money was raised entirely by our staff, staff family members, the board of trustees and retirees, through various fund raising activities.

Team captains for 2012 were Nolan Hartzler and retiree Gary Snyder.

ACS is dedicated to eliminating cancer through research, education, advocacy and service.

HWEC team has raised more than \$81,000 in the last nine years!

Energy Efficiency *Tip of the Month*

Two degrees can make a big difference on your electric bill. Setting your thermostat 2 degrees Fahrenheit higher in summer and lower in the winter results in major energy savings. Investing in a programmable thermostat can save even more — these devices automatically lower and raise your home's temperature. Set it and forget it! Find more ways to save at TogetherWeSave.com.

Operation Round Up

Operation Round Up again this year supported the local youth 4-H programs at both the Holmes County and Wayne County fairs. Livestock sale buyers from both fairs could choose to donate market animal meat purchased from the local 4-H youth to a local nonprofit agency. Operation Round Up paid for the processing of the meat. Agencies such as the Salvation Army, Holmes County Home and Senior Center benefited from this assistance.

Unclaimed capital credits

In June 2008, Holmes-Wayne Electric Cooperative, Inc., mailed a general retirement of capital credits. Many checks were returned to us as undeliverable and, to date, these refunds remain unclaimed. Per the cooperative's Code of Regulations, the unclaimed capital credits are reallocated to current cooperative members four years following the original mailing and following two consecutive notices in this publication. This is the first notice. Anyone with information on these members or their heirs, whose name and last known residence is listed, is asked to contact the cooperative office toll-free at 866-674-1055. Contact must be made within 60 days following the last date of the publication of this notice of Nov. 1, 2012.
